

Imagine... A Better Way To Buy

We can talk about walk-in tubs until we are blue in the face!

But, guess what? We've learned that most of our customers, just like you, do NOT want to talk about walk-in tubs for hours and hours on end.

Instead, you want information. A price. And the confidence to buy.

We get it.

That's why we asked you to send measurements and photos. Now we can see the scope of work and understand your unique needs.

And, that's why you are going to receive your custom price quote, within 1 business day, sent to your email address!

Questions?
Call 888-681-6080

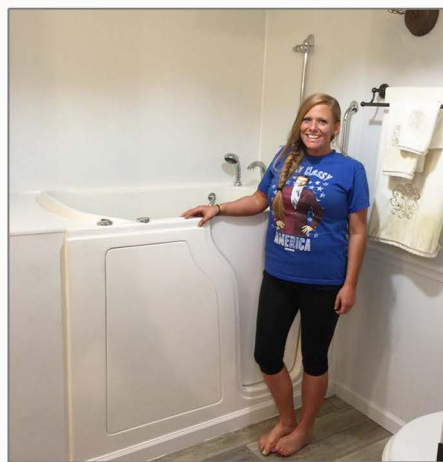

Our mission is to give you the most comprehensive information possible and help answer your questions so you can make a smart purchasing decision - all 100% via email and phone.

“ We were thinking about the future. We had some discussions with our family members about staying at home vs. planning for assisted living. We decided we wanted to stay home. And we bought because we had some concerns about our regular bathtub and were worried that we might fall. Now bathing is a relaxing way to start or end the day. We chose walk-in tub world because we previously received 2 other quotes from high-pressure, in-home salesmen. When we found these guys, it was a breath of fresh air. Installation went smoothly and we are very happy.”

It's no surprise that safety concerns are why people buy walk-in tubs. Mobility, balance, and bathing independently are regularly at the top of our customers' minds. With a low-threshold entry, safety grab rails, and a molded ADA compliant seat, walk-in tubs provide clear safety benefits.

“ I have consistent back and knee pain and was looking for a way to help manage those symptoms. The hydrotherapy benefits help me sleep better too. Brent and Ryan installed my tub and were very respectful of my property. Please tell them thanks again!”

Managing health challenges with hydrotherapy (water therapy) is a form of treatment and a main reason why customers buy. Whether you have back/knee pain, circulation issues, arthritis, stress, or other concerns, walk-in tubs can provide some much-needed relief.
