

Features & Options

Although we do offer every feature available in the walk-in tub marketplace, one thing we do NOT do at Walk-In Tub World, is assume every buyer needs or wants them all.

Some folks like tubs with all the bells and whistles, like a heated seat or rain shower head system. Other buyers want air or water-jetted tubs, and choose to add features like chromotherapy or aromatherapy, on a case-by-case basis.

You can speak with your installation manager to learn more about your options and decide which features to include in your price quote.

Whatever you choose, it's completely up to you.

Features & Options

Microbubbles

Wash away toxins with fresh oxygen and enjoy a day at the spa at home. With the push of a button, you can deploy billions of bubbles that envelop your skin and its pores. Microbubble air jet therapy offers gentle exfoliation, deep cleaning and hydration.

Water Jets

Variable speed water jets liven and exhilarate your body. Surround yourself with continual massage providing a greater range of motion. Reduce aches and pains with a luxurious bathing experience.

Aromatherapy

Essential scented oils of lavender and eucalyptus provide a soothing, spa-like experience.

Features & Options

Chromotherapy

Dim the lights, relax and enjoy chromotherapy mood lighting. Enhance your bathing experience with light therapy to stimulate your senses, your body and your mind.

Speed Drain

Drain your tub in 60-90 seconds with a power speed drain. Our water pump can include a reverse intake to remove water quickly.

Heated Seat

Our advanced radiant heaters provide soothing comfort directly to the surface of the bathtub with a heated seat and backrest.

Rain Shower Head

Enjoy a spa shower with your new rain shower head system. Luxury bathing and showering are available from the comfort of your new bathroom oasis.
